- 2015 **Future Worm - Disney XD**
Freelance board artist on the new and creative series. 11 min / Script driven.
- 2013 - 2014 **Wabbit - Warner Brothers Animation / Cartoon Network**
After developing the project, was brought on to produce the Bugs Bunny series. CN ordered 26 x 22 episodes (each ep contains 4 shorts (total of 104 shorts)). It was a dream job to work with a crew to help push these cartoons through the many stages of animation production (with a focus on the writing, boarding, casting and editing). Started as script driven but later switched to premise, as we had way more fun breaking stories in the story room, than alone over a keyboard.
Also developed a Bugs Bunny theatrical short, originally planned pair with 'the Lego movie'. This short led me to producing and directing on 'Wabbit.'
- 2006 - 2012 **American Dad – Fox**
Board artist for the popular Seth MacFarlane comedy series, Seasons 3 – 7.
